Legend

AP – Advanced Placement	CE – Concurrent Enrollment
Blended – This is a blended course, classes will be held in-person and online. In-person and online days will be determined by the teacher of the course.	UTSC – Utah Students Connect Course Registration for these courses are required to be requested through your counselor.
Audition – Students are responsible to seek out audition information and tryout to remain in this course.	Permission – Student must get approval from the teacher to take this course.
Application – Students are responsible to seek out, complete and turn in the application to stay in this course.	Referral – Permission from a teacher or counselors is required to be in the course.

RHS Course Descriptions

Language Arts

AP Language and Composition		
46310	Fees: \$15.00	Description: Do you ever watch the news or listen to politicians and realize that there's a problem with the logic, with the way they evade the issues that really matter? Do you wonder why people can't seem to reach a consensus? While this class won't fix all those problems, it will give you the skills you need to see and identify how language is being used to manipulate or enlighten, to instruct or control. This course is about empowering you to be an analytical, thinking, articulate citizen who can contribute appropriately and thoughtfully to your community now and in the future. You will find your voice, have a platform on which to express it, and learn to say what you mean because you've considered what it means and why. This is an accelerated course. University credit can be earned with successful performance on the AP exam.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: English 10, 11, 12	

AP Literature and Composition		
46300	Fees: \$	Description: This course aligns to a college-level introductory literary analysis course. This course is designed to increase students' abilities as skilled readers of literary texts and poetry in a variety of genres. Students will critically read literature selections and write analytically about what they have read. The course emphasizes literary analysis of literature (fiction), informational texts (nonfiction), and poetry to prepare students for the AP Literature and Composition exam. Students passing the exam can earn college credit.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: English 11, 12	

Creative Writing 1		
46551		Description: This semester course, based on the Utah English Arts (ELA) Core Writing Standards, is designed as an
Grade Level: 10 - 12		

Credit: .5	Can count for: Elective, Senior English	introduction to imaginative writing of personal experiences, character sketches, short fiction, and poetry. Students who enroll in Creative Writing will develop composition skills and strategies that transcend genre and curricula in order to become more proficient and prepared writers. It provides students with the opportunity to prepare manuscripts for publication, awards, and scholarships. Creative Writing is perfect for students who want to improve their writing skills, dive into creative genres, or explore writing beyond analysis and argument.
------------	--	---

Creative Writing 2		
46561		Prerequisite: Creative Writing 1
Grade Level: 11 - 12		Description: This course, based on the Utah English Arts (ELA) Core Writing Standards, is designed to emphasize imaginative writing through the study and writing of longer fiction, one-act plays, and poetry. During Creative Writing 2, students will curate and compose a literary magazine that will be published and distributed to the Riverton High student body. During the process, students will work in committees and under the direction of fellow students. Students will work collaboratively on the literary magazine and individually on personal projects. Creative Writing 2 is perfect for students who are interested in publication, rigorous writing practice, and collaborative composition. To enroll in Creative Writing 2, students must have completed Creative Writing 1 with at least a C grade.
Credit: .5	Can count for: Elective, Senior English	

ENG 1010 - Intro to Writing		
96001	Fees: \$	Prerequisite: Meet SLCC Requirements
Grade Level: 12	CE	Description: This course is a college-level course designed to introduce students to key concepts regarding academic writing with a focus on research and critical thinking. Students can receive college credit if they meet certain grade-based criteria.
Credit: .5	Can count for: Senior English	

ENG 2010 - Intermediate Writing		
96111	Fees: \$	Prerequisite: Pass ENG 1010 with a C or better or score a 3 or higher on the AP Lang exam.
Grade Level: 12	CE	Description: This course extends the principles of academic writing introduced in ENGL 1010; namely, writing as a means of participating in a conversation, the examination of personal biases, and the various mediums by which to express information.
Credit: .5	Can count for: Senior English	

ENG 2200 - Intro to Literature		
96151	Fees: \$	Prerequisite: Apply to Weber
Grade Level: 12	CE	Description: An introduction to three major literary genres, fiction, poetry, and drama, drawn from a diverse range of authors from various cultures and historical periods. Students will learn how to read literary texts closely and critically, and how literature—reading more generally—can have a meaningful part of their daily lives. Course includes relevant practice in the
Credit: 0.5	Can count for: Senior English	

		principles of successful writing, including drafting, revising, and editing. This course will most likely transfer to Universities/Colleges as a Humanities credit. See College Transfer Guide.
--	--	---

Fantasy/Sci Fiction		
46611		Description: This course is designed for students who devour science fiction and fantasy, or those who want to expand their reading options in these genres. We will primarily read short stories and novels, and we will create original characters, worlds and other projects. The goal is to increase reading and comprehension skills, broaden thinking and analysis skills, create original work, and build a community of similar interests.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Journalism 1		
46400		Description: This year long course (with a semester option) is based on the Utah English Language Arts (ELA) Core Standards, and is designed to teach students about newspaper writing and producing. Newspaper writing, interviewing, editing, and layout production are emphasized. Students will produce installments of a print newspaper that they distribute to the school throughout the year and that will become an archived part of the school's history.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective, Senior English	

Language Arts 10		
46010		Description: This course, based on the 10th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication.
Grade Level: 10		
Credit: 1.0	Can count for: English 10	

Language Arts 10 Honors		
46020		Description: This course, based on the 10th Grade Utah English Language Arts (ELA) Core Standards, is designed for students who qualify for more advanced instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication. This course prepares students for Advanced Placement Language (AP LANG), Advanced Placement Literature (AP LIT), or Language Arts 11 Honors (LA11H).
Grade Level: 10		
Credit: 1.0	Can count for: English 10	

Language Arts 10 with Reading		
46000		Prerequisite: RI score markedly below grade level with referral from 9th grade English teacher Description: This course provides a small-class, intensive experience for students who score below grade level on standardized reading tests and receive a recommendation from their LA 9 teacher. Students must commit to the intensive, in-class structure of the course and can expect to see improvements in reading ability and comprehension as a result.
Grade Level: 10	Referral	
Credit: 1.0	Can count for: English 10	

Language Arts 11		
46110		Description: This course, based on the 11th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for effective communication, with an emphasis on American literary texts.
Grade Level: 11		
Credit: 1.0	Can count for: English 11	

Language Arts 11 & US History/Blended		
46111		Prerequisite: Corequisite: Blended US History Description: This course combines the Utah Core Standards for U.S. History and Language Arts 11. Students receive credit for two full courses. Designed around documents from and about industrialization through today's modern issues, this class focuses on developing critical thinking, evaluation, reading comprehension, and writing skills. Student attendance is mandatory for scheduled discussions, writing conferences, assessments, and review, feedback, and/or retakes at the end of each module, which adds up to less than 10 times a quarter. All other work will be completed online via a Canvas course, remotely. Teachers are available every day during assigned class periods for support with online content, as well as for scheduled in-person meetings. Recommended for students who require flexibility with scheduling, who are excellent time managers and self advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers. A caution to students: you will be responsible for your progress throughout the course. If you struggle with time management, self-starting, on task behaviors, etc. consult with a teacher or counselor before signing up for this course.
Grade Level: 11	Blended	
Credit: 1.0	Can count for: English 11	

Language Arts 11 Honors		
46120		Description: You know those conversations that go over your head because you don't know what everyone is talking about? This course is the antidote for that situation. With a broad range of American literature and documents as well as a study of current issues, this class does all the standard language arts stuff, but is also designed to help you feel like a smart, engaged citizen. You feel smart because you become smart. This course prepares students for enrollment in AP Language & Composition and AP Literature & Composition, is a great companion to AP U.S. History, and is based on the Utah Language arts Core standards.
Grade Level: 11		
Credit: 1.0	Can count for: English 11	

Language Arts 12		
46210		Prerequisite: Language Arts 11 Description: This course, based on the 12th Grade Utah English Language Arts (ELA) Core Standards, is designed for grade-level instruction in reading comprehension, writing, methods of inquiry, and the processes, skills, and strategies for
Grade Level: 11-12		
Credit: 1.0	Can count for: English 12	

		effective communication, with an emphasis on British literary texts.
--	--	--

Language Arts 12 Blended		
46211		Prerequisite: Language Arts 11
Grade Level: 11-12	Blended	Description: This course is recommended for students who would like flexibility within the school day schedule, and who are excellent time managers and self-advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers. Student attendance is mandatory for scheduled discussions, writing conferences, assessments, reviews, feedback, and/or retakes at the end of each module. Attendance is also mandatory for an individual or small group as the teacher sees necessary. All other work is completed online via the Canvas LMS. The teacher will be available during assigned class periods to support students with the online content, pacing, and mastery of content. Coursework includes a study of various genres of literature and non-fiction. Students will develop the skills to determine the author's intent and theme, and to recognize the techniques used by the author to deliver his or her message. Students will improve writing skills through a research project and other writing assignments.
Credit: 1.0	Can count for: English 12	

Language Arts 12 College Prep		
46220		Prerequisite: Language Arts 11
Grade Level: 11-12		Description: This course, based on Utah 12th grade English Language Arts (ELA) Core Standards and College and Career Ready Standards, is designed for students who plan to attend college. The course stresses reading, vocabulary, writing, and analytical skills necessary for college success. The course content includes an introduction to British literature and experience in research.
Credit: 1.0	Can count for: English 12	

Literature and Film		
47011		Prerequisite: Parental permission for PG-13 films
Grade Level: 11 - 12		Description: Do you think that movies are underrated as a key element of literature in modern society? This class looks at film as a form of literature, examining it in various genres and comparing its strengths and weaknesses to other forms of literature in the same genre. The "Literature" part of the course will consist of novels, short stories, memoirs, essays and poetry. The "Film" part of the course will consist of movies, documentaries and short video clips. JSD requires parental permission for films rate PG-13
Credit: .5	Can count for: Elective, Senior English	

Mythology 1		
46511		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

		the biggest ideas. In this semester course, we focus primarily on the Greek & Roman myths.
--	--	--

Mythology 2		
46541		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with the biggest ideas. In this semester course, we focus on the Legend of King Arthur and Norse Mythology, and briefly discuss Egyptian mythology. Mythology I is NOT a prerequisite for this course.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

THEA 1013		
16701	Fees: \$	Prerequisite: Meet SLCC requirements
Grade Level: 11 - 12	CE	Description: Don't throw away your shot to earn .5 RHS English or art credit and 3 GE credits through SLCC, all while learning how telling stories around the fire transformed into Broadway! Students will read, discuss, and watch the development of dramatic literature, stage technology and everything in between, from Greek classics to Broadway.
Credit: .5	Can count for: Art, Senior English	

Social Studies

European History AP		
61030	Fees: \$	Description: This college-level course in European history is intended for the above average history student. Emphasis is placed on advanced study, research, and analytical skills. The course covers European history from 1450 C.E. to the present and focuses on intellectual-cultural, political-diplomatic, and social-economic history. University credit can be earned with a successful performance on the Advanced Placement (AP) exam. This course fulfills the WH core requirement for graduation for 10th grade, or a social studies elective for grades 11-12.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: World History	

American Government Politics AP		
61240	Fees: \$	Description: This advanced course on U.S. Government and Politics will introduce students to the foundations of the U.S. Constitution, the workings and structure of the United States government, and the evolution of that government throughout American history. The course covers breaking down the Constitution itself, the structure of the U.S. government, the rights and liberties of American citizens, important Supreme Court cases in American history, civic participation and behavior, as well as the study of critical documents from different areas of U.S. Government. This course will prepare students for successful completion of the AP U.S. Government and Politics test.
Grade Level: 12	AP	
Credit: 1.0	Can count for: Government	

American Women's history		
61191		Description: This course focuses on the contribution of women in American society. The course covers women's history from colonial times to the present. Special emphasis is placed on biography, individual research and special projects.
Grade Level: 11 - 12		
Credit: 0.5	Can count for: Elective	

Psychology 1		
61331		Description: This course covers the history of psychology, research methods, biological bases of behavior, sensation/perception, states of consciousness, learning, and developmental psychology.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

Psychology 2		
61341		Description: This course covers the understanding of cognition, motivation, emotion, personality, testing, abnormal psychology, treatment of psychological disorders, and social psychology.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

Psychology AP		
61350	Fees: \$	Description: This college-level course covers the history of psychology, research methods, biological bases of behavior, sensation/perception, states of consciousness, learning, cognition, motivation, developmental psychology, personality, testing, abnormal psychology, treatment of psychological disorders, and social psychology. Students should be able to read college-level texts and apply the conventions of Standard Written English in their writing. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Elective	

Sociology 1		
61401		Description: Sociology is the study of society and social relationships. Since most human behavior is social, sociology subject matter ranges from family to the internet, organized crime and deviant behavior to religious traditions, race and gender inequality to a shared common culture. We observe, experiment, and create meaningful projects to learn why people do the things they do. Sociology can set you on a career path in social work and community services, education, law enforcement, marketing and advertising, and business and human resources.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

Sport Psychology		
61361		Description: This course is strongly recommended for competitive athletes and performers interested in learning practical strategies and techniques used by high performers. It is a semester length course taught in a highly energetic and positive environment. The course is open to grades 10-12.
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

US Government Citizenship		
61281		Description: This is an introductory course on the structure and evolution of the U.S. government. It will include the structure of government contained in the U.S. Constitution, the rights and liberties of the people, and the duties and responsibilities of U.S. citizens. Upon completion of this course, the student will understand the major ideas, protections, rights, structures, and economic systems that affect the life of a citizen in the United States. Additionally, students will practice the skills needed to conduct inquiries, weigh evidence, make informed decisions, and participate in political processes.
Grade Level: 12		
Credit: .5	Can count for: Government	

US Government Citizenship Blended		
61282		Description: This is an introductory course on the structure and evolution of the U.S. government. It will include the structure of government contained in the U.S. Constitution, the rights and liberties of the people, and the duties and responsibilities of U.S. citizens. Upon completion of this course, the student will understand the major ideas, protections, rights, structures, and economic systems that affect the life of a citizen in the United States. Additionally, students will practice the skills needed to conduct inquiries, weigh evidence, make informed decisions, and participate in political processes. Note: this is a blended course, meaning that portions of the class will be conducted in the classroom in person and other portions may be completed at home. In order to succeed in a blended course students must be self-directed and able to complete work on schedule while at home.
Grade Level: 12	Blended	
Credit: .5	Can count for: Government	

US History		
61110		Description: United States History 2 addresses the making of modern America, highlighting the events and issues in United States history from the late Industrial Revolution to modern times. Topics include, but are not limited to, the Industrial Revolution, the Progressive movement, imperialism and foreign affairs, the World Wars, the Great Depression, the Cold War, the civil rights movements, the rise of terrorism, and modern social and political history. The standards can be taught either chronologically or thematically, but are organized into chronological periods. Periodization is an organizational tool historians use to make connections and draw distinctions. Periods are flexible ways of making meaning, and sometimes overlap chronologically. Effort should be made to help students make connections between the events and ideas of the past and their lives today. Contextualizing the study of modern America by helping students make connections across the span of U.S. history can enrich and deepen their understanding of their own place in the American story.
Grade Level: 11		
Credit: 1.0	Can count for: US History	

US History & Language Arts 11 Hybrid/Blended		
61111		Prerequisite: Corequisite: Blended Language Arts 11 Description: United States History 2 addresses the making of modern America, highlighting the events and issues in United States history from the late Industrial Revolution to modern times. US History AP		
61130	Fees: \$	Description: This course is a college-level course in American history from the period of the first European explorations of the Americas to the present. The course emphasizes political institutions and behavior, public policy, social and economic change, diplomacy and human relations, and cultural and intellectual developments. Students should be able to read college-level texts and apply the conventions of Standard Written English in their writing. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11	AP	
Credit: 1.0	Can count for: US History	

US Sports History		
61521		Description: US Sports History is a semester class that looks at how sports have impacted US History, as well as how US History has impacted sports. In this class, we cover College and Pro Basketball, College and Pro Football, Baseball, Tennis, Boxing, Golf, and the Olympics. It's a great class, and if you like sports and history, you'll love this class!
Grade Level: 10 - 12		
Credit: .5	Can count for: Elective	

World History		
61010		Description: World History addresses events and issues in world history from the earliest evidence of human existence to modern times. Whenever possible, students will be expected to make connections between historically significant events and current issues. These connections are intended to add personal relevance and deepen students' understanding of the world today. Topics include, but are not limited to, the Neolithic Revolution, the dawn of civilization, the development of world religions, patterns in world trade, contributions of classical civilizations, the diffusion of technology, colonization and imperialism, global conflict, modern revolutions and independence movements, and current trends in globalization. The standards can be taught chronologically, thematically, or regionally, but are organized into chronological periods. Periodization is an organizational tool historians use to make connections and draw distinctions. Periods are flexible ways of making meaning, and may overlap chronologically.
Grade Level: 10		
Credit: 1.0	Can count for: World History	

World History: Modern AP		
61140	Fees: \$	Description: AP World History: Modern is an introductory college-level modern world history course. Students cultivate their understanding of world history from c. 1200 CE to the present through analyzing historical sources and learning to make connections and craft historical arguments as they explore concepts like humans and the environment, cultural developments and interactions, governance, economic systems, social interactions and organization, and technology and innovation.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: World History	

World War II		
61061		Description: This course will be a semester long course covering the causes, course, and results of World War II. The Holocaust, as well as aggression in Europe and Asia/Pacific will also be discussed. In addition, the long term effects of the war on the soldiers, civilians, the home front, the economy and society will be explored.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective	

Math

Secondary Math 2		
53100		Description: Students in Secondary Mathematics 2A will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations. This course is for students in Secondary Math 2 who need extra help in their core math course. The course will review key concepts that are necessary for the students to be successful in their core class.
Grade Level: 10 - 10		
Credit: 1.0	Can count for: Math Core	

Secondary Math 2A		
53102		Prerequisite: Referral from 9th grade teacher Description: Students in Secondary Mathematics 2 will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations.
Grade Level: 10 - 10	Referral	
Credit: 1.0	Can count for: Math Core	

Secondary Math 2 Honors		
53110		Description: Students in Secondary Mathematics 2 Honors will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations. Honors students will also represent complex numbers and their operations on the complex plane, solve systems of equations, prove and apply trigonometric identities, and express conic sections algebraically.
Grade Level: 10 - 10		
Credit: 1.0	Can count for: Math Core	

Secondary Math 3		
53200		Description: Students in Secondary Mathematics 3 will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Math Core	

Secondary Math 3 Blended		
53201		Description: This course is recommended for students who would like flexibility within the school day schedule, and who are excellent time managers and self-advocates. Students must be dedicated to communicating regularly with the classroom teachers. Students attendance is mandatory for assessments,

Credit: 1.0	Can count for: Math Core	

		<p>and or retakes at the end of each module. Which will be between 3-5 times a quarter. It may also be mandatory for small learning groups to come in for extra help when you have fallen behind. Most of the work is completed online via the Canvas LMS. The teacher is available during assigned class periods to support students.</p> <p>Students in Secondary Mathematics 3 will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problem</p>
--	--	---

Secondary Math 3 Honors		
53210		<p>Description: Students in Secondary Mathematics 3 Honors will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems. Honors students will also use logarithmic and trigonometric functions, build functions from existing functions, extend the domain of trigonometric functions using the unit circle, and prove trigonometric identities. Students completing Secondary Mathematics 1, 2, and 3 are prepared for Calculus.</p>
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Math Core	

Secondary Math 3A		
53202		Prerequisite: Referral from Math 2A teacher
Grade Level: 11 - 12		<p>Description: Students in Secondary Mathematics 3A will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems. This course is for students in Secondary Math 3 who need extra help in their core math course. The course will review key concepts that are necessary for the students to be successful in their core class.</p>
Credit: 1.0	Can count for: Math Core	

College Prep Math		
51260		<p>Description: This course formalizes and reinforces concepts from the Secondary Mathematics series to provide students with the foundational skills and understanding prerequisite to College Algebra (MATH 1050). Students will reason abstractly and quantitatively while solving linear and quadratic equations</p>
Grade Level: 11 - 12		
Credit: 1.0	Can count for: Math AAF	

		and linear inequalities. They will efficiently use polynomial and rational expressions and functions, radicals and complex numbers, and exponential and logarithmic expressions and functions to model and solve mathematical problems. They will explore conic sections and represent parabolic data.
--	--	--

AP Calculus AB		
51350	15	Prerequisite: Secondary Math 3 Description: This is an introduction to differential and integral calculus topics which are equivalent to a college level Calculus 1 course. The course uses advanced skills in algebra, geometry, and trigonometry to analyze real world problems involving movement and variable rates of change. Graphing calculator investigations are an integral part of the course and the Advanced Placement (AP) exam. University credit can be earned with a successful performance on the (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Math	

AP Calculus AB/BC		
51360	15	Prerequisite: Secondary Math 3 Description: This course teaches the extension of the differential and integral calculus topics of Calculus AB, which are equivalent to two semesters of college level Calculus 1 and 2 courses. The course uses advanced skills in algebra, geometry, and trigonometry to analyze real world problems involving movement and variable rates of change. This course focuses on the application of calculus using vectors, parametric/polar modeling, and power series. Graphing calculator investigations are an integral part of the course and the Advanced Placement exam. University credit can be earned with a successful performance on the Advanced Placement (AP) exam.
Grade Level: 11 - 12	AP	
Credit: 2.00	Can count for: Math	

AP Statistics		
51400	15	Prerequisite: Secondary Math 3 Description: An introductory, non-calculus based college level course which introduces students to the major concepts and tools for collecting, analyzing, and drawing conclusions from data, including exploring data, statistical inference, planning a study, and using probability and simulation to anticipate patterns. Graphing calculators with statistical capabilities are an integral part of the course and of the Advance
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Math	

Math 1030/Quantitative Analysis		
96581	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: This course is an appropriate culminating mathematics course for the general studies or liberal arts student majoring in humanities or other programs not related to math and science. The course covers a broad scope of mathematical topics as they apply to real-world problems. Topics include reasoning and number sense, finance matters, probability and statistics, and modeling. There is an additional
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

		\$18.75 electronic textbook/ learning materials fee associated with this course.
--	--	--

Math 1040/Statistics		
96521	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: This course is recommended particularly for students in programs desiring statistical literacy, including (but not limited to) Social Science, Behavioral Science, and Nursing. This course includes descriptive and inferential statistical methods. Emphasis on sampling design; descriptive statistics; linear regression and correlation; probability; sampling distributions; hypothesis testing and confidence intervals.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math 1050/College Algebra		
96501	15	Prerequisite: Secondary Math 3, Meet SLCC Requirements Description: College Algebra satisfies quantitative literacy requirements for students planning to take calculus. Topics include polynomial, rational, exponential and logarithmic functions; matrices; conics; sequences and series; and mathematical induction.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Math 1060/Trigonometry		
96511	15	Prerequisite: Math 1050 with a C or better Description: This course covers Trigonometric functions and their graphs developed using circular and triangular methods including inverses; polar coordinates; and an introduction to vectors.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: Math AAF	

Accounting 1		
83001		Description: "Accounting is the language of Business!" This course provides students with the knowledge of business organizations by understanding the accounting theory, concepts and procedures. Accounting 1 focuses on the double-entry accounting systems related to a service business organized as a sole proprietorship. Students will acquire knowledge of journalizing and posting transactions, worksheets, financial statements and accounting concepts and procedures essential to the accounting cycle.
Grade Level: 10 - 12		
Credit: .5	Can count for: Math AAF, CTE	

Accounting 2		
83011		Prerequisite: Accounting 1 Description: Accounting 2 continues to apply the concepts of double-entry accounting to a merchandising business. Additional skills include dealing with uncollectible accounts, calculating depreciation on assets, interpreting financial information, calculating notes and interest, payroll systems and special journals.
Grade Level: 10 - 12		
Credit: .5	Can count for: Math AAF, CTE	

Computer Programming 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: Math AAF, DS, S, CTE	

Science

Biology		
31110		Description: An introduction to the unifying principles of biology with emphasis on interactions with organisms and the environment, structure and function of life, genetic patterns, and evolutionary change. Science and engineering practices developed through hands on experimentation and interactions with current scientific literature. Great ACT preparation.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Biology Blended		
31111		Description: An introduction to the unifying principles of biology with emphasis on interactions with organisms and the environment, structure and function of life, genetic patterns, and evolutionary change. Science and engineering practices developed through hands on experimentation and interactions with current scientific literature. Great ACT preparation. Student attendance mandatory for scheduled labs and assessments. All other work completed online via Canvas course, remotely. Teachers available every day during assigned class periods for support with online content. Recommended for students who require flexibility with scheduling, who are excellent time managers and self advocates. Students must be dedicated to communicating regularly with classroom teachers and collaborating online with peers.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Biology AP		
31120	Fees: \$	Description: AP Biology is an introductory college-level biology course. Students cultivate their understanding of biology through inquiry based investigations as they explore the following topics: evolution, cellular processes, energy and communication, genetics, information transfer, ecology, and interactions.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

BIO 1010/1015 Lab		
32210	Fees: \$	Description: An introduction to Biology for non-science majors. A survey of living diversity from bacteria to plant and animals. Introduces cell structure and physiology, inheritance, evolution and classification. Students can receive college credit if they meet certain grade-based criteria.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: Science Core	

Chemistry		
31210		Description: This is a general high school level chemistry course that will study the Utah Chemistry Science with Engineering Education Standards (SEEd) standards. Students will explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Chemistry Blended		
31211		Description: A general chemistry online course developed and taught by Riverton High science teachers. Most of the learning will take place on line outside of school in this home/school blended course. Labs and exams will be in class during the assigned period. Only students that are goal oriented and are self-starters should take this course. The Chemistry Science with Engineering Education Standards (SEEd) standards explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Chemistry Honors		
31220		Description: This Honors Chemistry course moves at a faster pace and covers more topics than general chemistry. This class is better preparation for college chemistry or AP chemistry. The Chemistry Science with Engineering Education Standards (SEEd) standards explore the foundational principles of chemistry that allow students to investigate the ways in which chemistry impacts everyday life. Students investigate the properties and structure of matter at atomic and subatomic scales to explain how they influence a system's larger scale, structures, properties, and functions.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Chemistry AP		
31230		Description: Advanced Placement (AP) Chemistry is a full-year introductory college course. The study includes advanced theoretical and physical understanding of chemistry. University credit can be earned with a successful performance on the AP Chemistry exam. It is recommended that students have completed a high school level college course, but students with strong study skills have been successful in this intensive course.
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

Physics		
31310	Fees: \$40.00 optional fee	Description: Physics is a full year course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Physics Blended		
31311		Description: A general physics online course developed and taught by Riverton High science teachers. Most of the learning will take place on line outside of school in this home/school blended course. Labs and exams will be in class during the assigned period. Only students that are goal oriented and are self-starters should take this course. Physics is a full year course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems.
Grade Level: 10 - 12	Blended	
Credit: 1.0	Can count for: Science Core	

Physics Honors		
31340	Fees: \$40.00 optional fee	Description: Honors Physics is a faster paced Physics course involving a blend of conceptual and mathematical approaches to problem solving. In addition to content covering dynamics, energy, waves, and fields, we will engage in many hands-on labs where students can engineer unique solutions to problems. This is a full-year course.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science Core	

Physics AP		
31360	Fees: \$40.00 optional fee	Description: Advance Placement (AP) Physics 1 is a full-year introductory college course. University credit can be earned for this course through successful performance on the AP Physics 1 exam. This course is algebra-based and promotes practically-applied mathematics to solve a variety of problem sets. Students should have a grasp of basic trigonometry before enrolling in this course. If you enjoy math, and the weird and wacky, give AP Physics 1 a try!
Grade Level: 10 - 12	AP	
Credit: 1.0	Can count for: Science Core	

Agriculture Science 1		
82040		Description: Students will develop knowledge and skills that will provide a foundation for courses in animal science, plant science, horticulture, agriculture systems and technology, and natural resources. Topics covered include basic animal, plant, soil science; natural resources; food science technology, agribusiness, personal and leadership development. Emphasis is put on current trends and career opportunities.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science AAF, CTE	

Animal Science 1		
82010	Fees: \$15.00	Description: Students will develop knowledge and skills in a wide range of scientific principles, including genetics, anatomy, physiology, nutrition, disease, reproduction, and management practices. Students will have a better understanding of the livestock and meat industries and will be better prepared to
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science AAF, CTE	

		understand modern day agricultural issues. This course is highly recommended for those wanting to move on the veterinary program at the JATC. There is no need for prior animal or agriculture experience.
--	--	--

Astronomy		
31411		Description: Students who are interested in increasing their knowledge of space, the stars, the planets, and other related topics will find this course engaging, entertaining, and enlightening! We will begin the course with a look at ancient astronomers and the events that lead up to the Scientific Revolution. From there, we will learn about our Sun, moon, and the planets of our solar system. Taking that knowledge past the bounds of the familiar, we will delve into the realm of stars, alien planets, and galaxies! This semester-long course finishes with a look into the weird science of black holes, wormholes, and dimensions.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science AAF	

Computer Program 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science Core, CTE, DS, Math AAF	

Medical Anatomy and Physiology		
91200		Prerequisite: Intro to Health Science recommended, but not required Description: If you are interested in a medical career or want to get into the JATC health career programs this class is a must! This class prepares students for the medical field by gaining a base understand of the human body. It is recommended students take intro to health science prior, but is not required. We will do many hands on dissections to help students visually understand the material. Students are more likely to succeed in JATC medical programs when taken this class prior to their JATC program.
Grade Level: 11 - 12		
Credit: 1.0	Can count for: CTE, Science AAF	

HTHS 1110 Human Anatomy 1		
91281		Prerequisite: Must take together HTHS 1110 & 1111 together Description: This is a college anatomy course taught through Weber and proctored by Ms. Elliott. This anatomy credit is a prerequisite to all medical careers. Any student who is pursuing a medical career should take this course. You will be receiving college credit for a high school student discounted tuition rate! This class requires 10-12 hours of work outside of class per week, but it is well worth the work. Students have shown higher success rates in this class when taken in high school versus college.
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: CTE, Science AAF,	

HTHS 1111 Human Anatomy 2		
91291		Prerequisite: Must take together HTHS 1110 & 1111 together Description:
Grade Level: 11 - 12	CE	
Credit: .5	Can count for: CTE, Science AAF,	

Wildlife Biology		
31600		Description: This course builds off of general biology and highlights wildlife and the ecosystems they inhabit. The following topics are covered throughout this course: basic ecological principals and classification of organisms, comparing and contrasting the characteristics of various animals and plants, North American wildlife history, wildlife management, and wildlife preservation and conservation issues.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Science AAF	

Zoology		
31631		Description: Zoology is the study of the world of animals. Animal body structures, physiology, behaviors, habitats and classification are examined in this field of study.
Grade Level: 10 - 12		
Credit: .5	Can count for: Science AAF	

Digital Studies

Business Office Specialist		
83161	Fees: \$10.00	Description: Find out why Microsoft Office is used by 80% of the largest and most successful companies in America. This class focuses on three key Microsoft Applications: Word, Excel, and PowerPoint. Learn how to create and edit intricate word documents, manage data in spreadsheets, and put together strong presentations. There is a strong chance you will need to know this software in college and in the professional world, get a leg up now.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, CTE	

Computer Programming 1		
81211		Description: This beginning course teaches the basics principles of programming and the Java language. Students will learn to design, code, and test their own programs while applying mathematical concepts and using a programming approach to solve problems.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, Math AAF, Science Core, CTE	

Web Develop 1		
81281		Description: Ever wonder why websites look the way that they do? If you have this class is for you! Web Development is an introduction to web based coding which allows students to create their own web sites from scratch. Basic languages covered include HTML, CSS, and Javascript. This class also creates images to display on web sites using Adobe Photoshop.
Grade Level: 10 - 12		
Credit: .5	Can count for: DS, CTE	

		Anyone who likes to create content and problem solve would be a good fit for this class.
--	--	--

Financial Literacy

Financial Literacy		
22001		Description: This is one of the most important classes you will take in high school! Learn how manage your own finances and survive in the real world. Topics covered include: budgeting, investing, credit, and taxes among others. All units cover material that will be used in your day to day adult life.
Grade Level: 11 - 12		
Credit: .5	Can count for: Fin Lit	

FHS 2400/Marriage & Family		
99280	Fees: \$	Description: Adulthood doesn't have to be hard. Learn about families, finance, dating, marriage and more. This class will help you prepare to make those important decisions. In addition to earning college credit, you will also fulfill your Financial Literacy graduation requirement.
Grade Level: 11 - 12	CE	
Credit: 1.0	Can count for: .5 Fin Lit & .5 CTE	

Health & Physical Education

Aerobics		
71251	Fees: \$5.00	Description: This course is designed to help individuals become physically fit through continuous movement activities to music.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Ballroom Dance 1		
71441		Description: This course offers instruction and practice in the social dance steps, rhythms, and techniques. The following dances may be included: foxtrot, cha-cha, waltz, swing, mambo, western swing, and western line dance. Performances and rehearsals outside of the regular school day are required and will constitute a portion of the course grade.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA, Art	

Ballroom Dance 2		
71451		Prerequisite: Ballroom 1
Grade Level: 11 - 12		Description: This intermediate course offers instruction and practice in intermediate ballroom dance steps, rhythms and techniques. Performances as well as rehearsals outside the school day are required and will constitute a portion of the course grade.
Credit: .5	Can count for: ILA, Art	

Ballroom Dance 3		
7151		Prerequisite: Instructor Approval
Grade Level: 11 - 12	Permission	Description: This course offers advanced instruction in the elements of design, dance, choreography, and technique (ballroom and other forms) with an emphasis in performance. This course expands the student's experience with critical thinking and learning how to artistically infuse concepts like historical and cultural contexts within their performance. Students are expected to work as team members and manifest a
Credit: .5	Can count for: ILA, Art	

		higher level of technique and artistry in their performance. This course offers a strong focus on self/group analysis, creativity and what it means to be a responsible partner and performer; as well as the steps necessary in preparing an actual dance performance.
--	--	---

Dance 1		
71401		Description: This course offers instruction in the basic fundamentals of dance techniques and composition. Performances outside of the regular school day may be required, and they will constitute a portion of the course grade.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA, Art	

Dance 2		
71411		Prerequisite: Dance 1 Description: This intermediate course emphasizes techniques, choreography, and improvisation. Performances outside of the regular school day may be required, and they will constitute a portion of the course grade.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA, Art	

Dance 3		
71420	Fees: \$30.00	Prerequisite: Audition Description: This advanced course teaches dance technique with further development of skills in choreography and composition.
Grade Level: 10 - 12	Audition	
Credit: 1.0	Can count for: ILA, Art	

Drill Team		
72040	Fees: \$	Prerequisite: Audition Description: This course will cover the rehearsal and performance aspect of various dance styles and students will learn the elements of performance, choreography and production. The team creates routine based on precision dance movements and may perform at athletic events promoting school spirit through performances and other extracurricular activities.
Grade Level: 9 - 12	Audition	
Credit: 1.0	Can count for: ILA	

Fitness For Life		
71201		Description: This class is required for graduation. This course is designed for continued physical fitness improvement with an increased understanding of the components that make up fitness i.e., heart/lung fitness, strength, flexibility, muscle endurance, weight control/nutrition, and stress management.
Grade Level: 10 - 12		
Credit: .5	Can count for: Fitness for Life	

Health Ed 2		
71001		Description: This course emphasizes the physical, social, and mental health dimensions people make in their lives and offers students an opportunity to evaluate health practices, products, and services.
Grade Level: 10 - 12		
Credit: .5	Can count for: Health	

Health Science, Intro		
71010	Fees: \$10.00	Description: If you are interested in going into the medical field this year long class is the class for you. It is a combination
Grade Level: 10 - 12		

Credit: 1.0	Can count for: Health .5 CTE .5	of Health and introduction into the anatomy/physiology, medical terminology, medical ethics, diseases and disorders of the 11 body systems. This course prepares students for the Medical Anatomy/Physiology course and a variety of other pathways and classes in the medical field. This class will include many dissections and hands-on activities that will compliment the learning environment.
-------------	---------------------------------------	---

Power Lifting		
71320		Prerequisite: On Football Team
Grade Level: 11	Permission	Description: This is an advanced weight training course that offers instruction in heavy powerlifting routines. It stresses strength, weight gains, and flexibility for injury prevention and agility. The course is designed to offer a higher level of proficiency and more in-depth instruction in weight training. Students learn that weight training is a fitness activity with many benefits, including improving personal health, increasing longevity, and quality of life through the reduction of stress. Through focused instruction, students are able to identify the benefits and dangers of various dietary supplements such as vitamins, minerals, herbs, power drinks, steroids, and performance enhancing drugs.
Credit: .5	Can count for: ILA	

Power Lifting		
71323		Prerequisite: On Football Team
Grade Level: 10	Permission	Description: This is an advanced weight training course that offers instruction in heavy powerlifting routines. It stresses strength, weight gains, and flexibility for injury prevention and agility. The course is designed to offer a higher level of proficiency and more in-depth instruction in weight training. Students learn that weight training is a fitness activity with many benefits, including improving personal health, increasing longevity, and quality of life through the reduction of stress. Through focused instruction, students are able to identify the benefits and dangers of various dietary supplements such as vitamins, minerals, herbs, power drinks, steroids, and performance enhancing drugs.
Credit: .5	Can count for: ILA	

Sports Perf Cross Country		
72200	Fees: \$5.00	Description: Before enrolling in this class it is recommended that you are currently exercising for at least 30 minutes every day. This course is a high level fitness class where you will train hard to achieve fitness gains to better improve your sports performance.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Sports Perf Track		
72201	Fees: \$5.00	Description: Before enrolling in this class it is recommended that you are currently exercising for at least 30 minutes every day. This course is a high level fitness class where you will train hard to achieve fitness gains to better improve your sports performance.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Team Sports		
71101	Fees: \$5.00	Recommended Prerequisite: Fitness for Life or counselor approval Description: This is a one semester elective course designed to teach students the basic rules and strategies of various team sports. This will include, but not be limited to the following: flag football, basketball, soccer, softball, tennis, volleyball, badminton, pickleball. Team and some individual participation will be required.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA, PST	

Weight Training 1		
71301	Fees: \$5.00	Description: This is a one semester elective course that will introduce weight lifting. Students will learn beginner lifts for arms, legs and core. They will also be able to identify the basic muscles used, learn proper techniques, track their progress, and demonstrate weight room safety.
Grade Level: 10 - 12		
Credit: .5	Can count for: ILA	

Weight Training 2		
71311	Fees: \$5.00	Prerequisite: Weight Training 1 Description: This course is a continuation of Weight Training 1, emphasizing further development of programs that develop body tone, muscle strength, and physical condition.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA	

Yoga		
71261	Fees: \$5.00	Description: Yoga means Union. It is a balance of the mind, body, and soul.
Grade Level: 11 - 12		
Credit: .5	Can count for: ILA	

Art

A'Cappella/Concert Choir		
13350		Description: This is the advanced large ensemble choir. It is designed to help students gain more experience and understanding of choral music; to expand their techniques of singing and musicianship by learning to perform more challenging choral literature (4-8 parts). Going through the choir levels or audition is required. This group participates in UHSAA Region and State Festivals, performs in the community and goes out on Tour.
Grade Level: 11 - 12	Audition	
Credit: 1.0	Can count for: Art	

Alto/Soprano Choir		
13330		Description: Riverton's Ladies Choir is a place for all Soprano and Alto students to sing together in a fun no pressure environment. 10-12th graders welcome. This choir sings 3 to 4 part literature and participates in UHSAA Region festival. This class is excellent preparation for advancement to the auditioned choirs of Cadence, Acappella & Madrigals. Students in this choir can automatically advance to Concert Choir (A'cappella) and/or Cadence with demonstrated proficiency.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Art	

Art 1010/Exploring Art		
10671	Fees: \$20.00	

Grade Level: 11 - 12	CE	Description: This introduces visual art to the non-art major. It provides a historical perspective of visual art development with an emphasis on Visual Culture and how it drives contemporary social themes, and a study of visual principles, elements, medias, techniques, and architecture. There will be some hands-on production of art. Reading and writing will be required.
Credit: .5	Can count for: Art	

Art 1020/Drawing		
10661	Fees: \$20.00	Description: This is an introductory drawing course for non-art majors. Line, shape, perspective, and light logic will be discussed. Using these techniques, students will develop their drawing skills. Some reading and writing will be required.
Grade Level: 10 - 12	CE	
Credit: .5	Can count for: Art	

ART 2D Photo AP		
86080	Fees: \$30.00	Description: Develop your skills in a two-dimensional medium in photography, You'll create artwork that reflects your own ideas and skills and what you've learned in Basic Film, Commercial 1 or Commercial 2.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Art	

ART 3D Design AP (Ceramics)		
10120	Fees: \$30.00	Description: AP 3D is a portfolio submission as opposed to a final exam. It includes sustained investigation and selected works. The works can be from grades 9-12 and can be any 3 dimensional medium.
Grade Level: 11 - 12	AP	
Credit: 1.0	Can count for: Art	

Ballroom 1		
71441		Description: Ballroom-1 This Social Dance class focuses on learning the basics of Ballrom technique, steps, and basic choreography. Students will learn the (Bronze) level steps for Waltz, Tango, Cha Cha, Swing, and Salsa!
Grade Level: 11 - 12		
Credit: .5	Can count for: Art, ILA	

Ballroom 2		
71451		Prerequisite: Ballroom 1
Grade Level: 11 - 12		Description: Ballroom-2 This class will review the (Bronze) level steps taught in the beginning class and then learn the (Silver) level steps. Students will also learn 2 additional dances, Viennese Waltz and Samba. A higher level of technique will be stressed.
Credit: .5	Can count for: Art, ILA	

Ballroom 3		
71501		Prerequisite: Instructor approval
Grade Level: 11 - 12		Description: This course offers advanced instruction in the elements of design, dance, choreography, and technique (ballroom and other forms) with an emphasis in performance. This course expands the student's experience with critical thinking and learning how to artistically infuse concepts like historical and cultural contexts within their performance. Students are expected to work as team members and manifest a higher level of technique and artistry in their performance. This course offers a strong focus on self/group analysis, creativity and what it means to be a responsible partner and performer;
Credit: .5	Can count for: Art, ILA	

		as well as the steps necessary in preparing an actual dance performance.
--	--	--

Bell Choir		
13370		Description: Riverton's Bell Choir is a unique music, being one of a few in the entire state. This course teaches the coordination and performance of the English Handbells. The Riverton Bell Choir performs at community events and school functions, and occasionally rehearses outside of class time. Those with piano backgrounds can make a great contribution to Bell Choir. Knowledge of music (i.e., note values and note names) is preferred, but not required. Open Enrollment to those willing to dedicate themselves to the music and the ensemble.
Grade Level: 10 - 12		
Credit: 1.0	Can count for: Art

Electives

Child Care Aide		
01490		Description: Our Silver Pups child care welcomes you to work with children ages 0-5 years old. You'll consider yourself lucky as you play and interact with our cute Silver Pups. They love their 'teacher' and look forward to you coming to class each day. Depending what period you enroll, you will help with snack/breakfast/lunch, nap time, singing time, art, and play. It is preferred you take this year long to help create security and comfort for our little ones, but special considerations can be made - please see Ms. Dea in Room 1128 if you would like the semester option. This class can be taken any period of the day as well.

Credit: .5	Can count for: Elective, Senior English	

Literature and Film		
47011		Description: This course, based on the Utah English Arts (ELA) Core Standards, is designed for students to read and analyze literary pieces and then explore how film enhances and/or detracts from the work. It focuses on class discussion and analysis of selected films
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Mythology 1		
46511		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with the biggest ideas. In this semester course, we focus primarily on the Greek & Roman myths.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Mythology 2		
46541		Description: A whole class focused on the myths of ancient cultures. From the Greek Gods to Thor, to King Arthur, we examine the questions we've been asking for centuries and the various ways humans come up with those answers. With humorous reader's theaters and creative projects, we play with the biggest ideas. In this semester course, we focus on the Legend of King Arthur and Norse Mythology, and briefly discuss Egyptian mythology. Mythology I is NOT a prerequisite for this course.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Creative Writing 1		
46551		Description: This semester course, based on the Utah English Arts (ELA) Core Writing Standards, is designed as an introduction to imaginative writing of personal experiences, character sketches, short fiction, and poetry. Students who enroll in Creative Writing will develop composition skills and strategies that transcend genre and curricula in order to become more proficient and prepared writers. It provides students with the opportunity to prepare manuscripts for publication, awards, and scholarships. Creative Writing is perfect for students who want to improve their writing skills, dive into creative genres, or explore writing beyond analysis and argument.
Grade Level: 10 -12		
Credit: .5	Can count for: Elective, Senior English	

Creative Writing 2		
46561		Description: This course, based on the Utah English Arts (ELA) Core Writing Standards, is designed to emphasize imaginative writing through the study and writing of longer fiction, one-act plays, and poetry. During Creative Writing 2, students will curate and compose a literary magazine that will be published and distributed to the Riverton High student body. During the process, students will work in committees and under the direction of fellow students. Students will work collaboratively on the literary magazine and individually on personal projects. Creative Writing 2 is perfect for students who are interested in publication, rigorous writing practice, and collaborative composition. To enroll in Creative Writing 2, students must have completed Creative Writing 1 with at least a C grade.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English	

Fantasy/Sci Fiction		
46611		Description: This course is designed for students who devour science fiction and fantasy, or those who want to expand their reading options in these genres. We will primarily read short stories and novels, and we will create original characters, worlds and other projects. The goal is to increase reading and comprehension skills, broaden thinking and analysis skills, create original work, and build a community of similar interests.
Grade Level: 11 - 12		
Credit: .5	Can count for: Elective, Senior English

Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: Digital Studies	

UTSC Financial Literacy		
22001		Description: This course will prepare students for the choices and challenges of today's financial markets. A better understanding of personal finance will help students move into adulthood making more informed monetary decisions, realizing a greater potential for personal wealth, and fostering a stronger state and national economy. The class will focus on income, money management, spending and credit, saving and investing, consumer protection, and risk management.
Grade Level: 11 & 12	UTSC	
Credit: .5	Can count for: Fin Lit	

UTSC French 2		
41015		Description: This course is designed to teach intermediate skills in listening, speaking, reading, and spelling. The curriculum covered in this course will give students the skills to communicate in culturally-appropriate ways in the target language. By the end of this course, student skill level should be at novice-high level according to the American Council on the Teaching of Foreign Language (ACTFL) standards. Students will develop an appreciation for the culture of the countries where the language is spoken.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Elective	

UTSC Language Arts 9		
45425		Description: This course is designed to emphasize reading comprehension, writing, and methods of inquiry as found in the core. The course will focus on the processes, skills, and strategies for effective communication in all its forms.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: English 9	

UTSC Language Arts 10		
46015		Description: This course is designed to emphasize reading comprehension, writing, and methods of inquiry as found in the core. The course will focus on the processes, skills, and strategies for effective communication in all its forms.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: English 10	

UTSC Language Arts 11		
46115		Description: This course is designed to emphasize reading comprehension, writing, and methods of inquiry as found in the core. The course will focus on the processes, skills, and strategies for effective communication in all its forms, with an emphasis on American literary texts.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: English 11	

UTSC Language Arts 12		
46215		

Grade Level: 11 & 12	UTSC	Description: This course is designed to emphasize reading comprehension, writing, and methods of inquiry as found in the core. The course will focus on the processes, skills, and strategies for effective communication in all its forms, with an emphasis on British literary texts.
Credit: 1.0	Can count for: English 12	

UTSC Health 2		
71005		Description: This course emphasizes the physical, social and mental dimensions of people. This course offers students an opportunity to evaluate health practices, products, and services.
Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: Consumer Health 2	

UTSC PST/PE		
70305		Description: This course is designed to develop skills and techniques in a variety of team and individual sports as well as improvement in personal fitness.
Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: PST	

UTSC Fitness for Life		
71205		Description: This course is designed for continued improvement of physical fitness. The course content includes an understanding of the components of fitness, i.e., heart-lung fitness, strength, flexibility, muscle endurance, weight control/nutrition, and stress management.
Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: Fitness for Life	

Individual Lifetime Activity		
71195		Description: This course is designed to educate students on self-assessment tools needed to practice a healthy lifestyle and to develop competency in student selected lifetime activities. Through the exploration of a variety of self-selected activities, students will be encouraged to find activities they enjoy and might continue to practice throughout their lifetime. This course includes ongoing physical activity, journals, research reports, and a final performance of a self-selected sport or lifetime activity.
Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: ILA	

UTSC Secondary Math 1		
53005		Description: Students in Secondary Mathematics 1 will deepen and extend understanding of linear relationships, in part by contrasting them with exponential phenomenon, and in part by applying linear models to data that exhibit a linear trend. Students will use properties and theorems involving congruent figures to deepen and extend understanding of geometric knowledge. Algebraic and geometric ideas are tied together. Students will experience mathematics as a coherent, useful, and logical subject that makes sense of problem situations.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Math Core	

UTSC Secondary Math 2		
53105		Description: Students in Secondary Mathematics 2 will focus on quadratic expressions, equations, and functions, extend the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Math Core	

		counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations.
--	--	---

UTSC Secondary Math 2 Honors		
53115		Description: Students in Secondary Mathematics 2 Honors will focus on quadratic expressions, equations, and functions, extending the set of rational numbers to the set of complex numbers, link probability and data through conditional probability and counting methods, study similarity and right triangle trigonometry, and study circles with their quadratic algebraic representations. Honors students will also represent complex numbers and their operations on the complex plane, solve systems of equations, prove and apply trigonometric identities, and express conic sections algebraically.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Math Core	

UTSC Secondary Math 3		
53205		Description: Students in Secondary Mathematics 3 will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Math Core	

UTSC Secondary Math 3 Honors		
53215		Description: Students in Secondary Mathematics 3 Honors will pull together and apply the accumulation of learning they have from previous courses. They will apply methods from probability and statistics to draw inferences and conclusions from data, expand their repertoire of functions to include polynomial, rational, and radical functions, expand their study of trigonometry to include general triangles, and use functions and geometry to create models and solve contextual problems. Honor students will also use logarithmic and trigonometric functions, build functions from existing functions extend the domain of trigonometric functions using the unit circle, and prove trigonometric identities. Students completing secondary Mathematics 1, 2, and 3 are prepared for Calculus.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Math Core	

UTSC Earth Science		
31015		Description: Earth Systems integrated science core focuses on earth, physical, space, and life science contents. Using observable evidence, students will study interactions among earth systems.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Science Core	

UTSC Biology		
31115		Description: The Biology Core Curriculum is based on a set of life science learning standards that all students are expected to know and be able to demonstrate understanding of upon completion of this course. The course is designed to emphasize
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Science Core	

		problem solving and scientific reasoning. Students will learn the scientific processes related to life science. Learning activities are varied with an emphasis on student investigations in the field, laboratory, and in technical research.
--	--	--

UTSC Chemistry		
31215		Description: This course is organized around major concepts of matter, structure, energy, and change. The concepts, principles and laws that describe the conservation of matter, changes in the structure of matter, and changes in energy will provide focus for this course. Chemistry students should design and perform experiments, and value inquiry as the fundamental scientific process.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Science Core	

UTSC Physics		
31315		Description: The three major concepts included in the Physics Core are: (1) motion of objects, (2) forces acting on objects, and (3) energy. Physics students should design and perform experiments, and value inquiry as the fundamental scientific process.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Science Core	

UTSC World Geography		
60215		Description: Geography is the study of physical and human characteristics of the Earth's people, places, and environments. Students will develop geographic thinking skills by studying the "why of where" as they examine the interactions, interconnections, and implications of forces shaping our world today. They will apply geographic knowledge and geo-literacy skills to identify, locate, interpret, analyze, and evaluate geographic patterns and processes. These standards emphasize both human geography and physical geography, and students will explore the interconnections between the two.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: Geography	

UTSC World History		
61015		Description: The study of world history emphasizes the increasing interrelationships over time of the world's peoples. These interrelationships have developed in two major arenas. First, the relationships have developed among major regions of the world: East Asia, Middle East, Africa, Europe, North America and Latin America. Second, they have developed within all aspects of human activity: political, economic, social, philosophical and religious, scientific and technological, and artistic.
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: World History	

UTSC US History		
61115		Description: Understanding United States history is essential for the continuation of our republic. This course will help students make connections between their world and the rich heritage of United States history. The course is designed as a survey of American history with an emphasis on post-Reconstruction America (1876-Present), but should include a
Grade Level: 10 - 12	UTSC	
Credit: 1.0	Can count for: US History	

		review of the earlier period. The course may be taught using a thematic approach or in chronological order.
--	--	---

UTSC US Government Citizenship		
61285		Description: The goal of this course is to foster informed, responsible participation in public life. Knowing how to be a good citizen is essential to the preservation and improvement of United States democracy. Upon completion of this course, the student will understand the major ideas, protections, privileges, structures, and economic systems that affect the life of a citizen in the United States political system. This course is recommended for seniors due to their proximity to voting and draft age.
Grade Level: 12	UTSC	
Credit: .5	Can count for: Government	

UTSC Psychology 1		
61335		Description: This course covers human behavior including the development of personality, sensation, perception, learning, and language. It also includes experiments and classroom participation. Advanced work emphasizes emotions, mental disorders and their treatment, personality theories, therapies, and testing.
Grade Level: 10 - 12	UTSC	
Credit: .5	Can count for: Elective
