RHS STUDENT ARTISTS

By: Molly Freeman

Rain LaMont

Photo Courtesy of: Rain LaMont

Rain LaMont is a crazy talented artist! Especially in ceramics! In her first ceramics class she [was tasked with making a box with a lid] and Rain tried multiple times to get it right and now she has a masterpiece. When i asked why she makes art and what keeps her motivated she stated "It's something i just do. It's like eating, you have to." She started in 4th grade then got her first sketch pad from her grandparents and is now on her 29th.

Dustin Smith

Photo Courtesy of: RHS Yearbook

Dustin would always draw things for his Grandma
Then in 2019 Dustin got some supplies for Christmas and decided to go back into it. How do you stay motivated? "I would show my family and they like it so I stay motivated to keep going."
He loves abstract art and to Dustin it's something where the art is in your head instead of a picture reference.
"I like it when people do things abstract but to also make it have more dimension"

Sarah Fulton

Photo Courtesy of: RHS Yearbook

"In the past I always wanted to fit in." and "figure out what my style was."
Sarah loves boho and toned down grunge. To her style it gives her diversity. And rivertons teacher Ms.William does the clothing design class. And the environment in her class was so amazing and you can even design your own looks!

Teacher Feature
Ms. Borgmeier!

By: Joshua McClan

Mrs. Borgmeier is the coolest teacher you could ever have! She has been teaching for 17 years and has been at Riverton for all of it!

Ms Borg has always wanted to be a teacher. “Instead of playing house or barbies growing up, I played school.” She had a chalkboard as a kid and spiral binder she called her teacher’s book. She even did it on the road and on family camping trips using a fridge as a chalkboard.

She teaches Child Development, Interior design 1, Interior design 2, INTD 1010, and Student Government. Next year she is going to teach health. She wants her students to get the material that's being taught. “I believe that the material taught in my classes is formation that will be super useful in the future.” She hopes that her example of being kind is the way her students follow and will want to help others.

If she could teach something that she isn't currently, it would be performing arts of some sorts with dance, theatre etc, anything besides math! “Math and I are not friends.”

She likes to have fun in her classes. She said, “I enjoy learning about students and love when they share stories and examples that relate to class.”

She wants her students to bring a positive attitude and the willingness to work. She loves Riverton and she is honored to be a silverwolf!

Borg is a great teacher at Riverton High School

Teacher Feature
Ms. Whitham

By: Patrick Kastner

Rebekah Whitham, epic science teacher, has been teaching at RHS for 3 years.

She wanted to be a teacher from a very young age; in fact, it was in first grade where Ms. Whitham realized she wanted to be a teacher. In first grade when doing math homework, she realized her teacher had an answer key, and at that moment, it was decided, “I wanted to have all the answers, and I want to have the key to all the tests.”

Now, Whitham didn’t start out wanting to be a science teacher, originally she thought of being a kindergarten teacher, but she realized, “kindergarteners drool, and you have to teach them how to cut with scissors, and I really could not handle that.” She spent one day in a preschool, and changed her major the very next day.

Ms. Whitham’s biggest goal is to make sure that her students come away with an appreciation for science: “If a student comes to me and says, ‘wait, did you hear about this?’ that’s mission accomplished.”

When asked the big question -is the earth flat?- she replied, “No it is not flat. Let it be on record, the earth is not flat.” Unable to decide if she likes physics or astronomy more, all her classes get the hype, especially when she has students “Rick Roll” her when turning in assignments. When asked what one thing she’d want people to know about herself, Whitham said, “I can play the bagpipes,” which is very fancy, frankly.

Ms. Whitham loves visitors, so come visit her anytime to talk space, physics, round earth, or anything!

Whitham outside of her classroom

What is PLT?

By: Eden Slabbert and Emma Jenson

Peer leadership team is a group of students who serve our school and community. This is a class that you can take however it's only available to juniors and seniors.

They organize a lot of drug free activities like red ribbon week. They also help out with the education side of Silver Rush they help out a lot with the special needs program at Kari Sue Hamilton School, unfortunately not this year with covid but last year and the years before they would help out at their assigned classrooms every week, so instead this year they have found innovative ways to still help them.

Instead of going in-person to assigned rooms they have been doing projects for them, they have a play going on and they always paint

backdrops for them.

PLT typically does not go to special needs schools but because our RHS PLT team is so close to Kari Sue they are lucky in that aspect, a lot of what our PLT does is rotated towards special needs but they play a really big role in silver rush too.

They mostly focus on the education aspects. Quincy Johnson says: “The SBOs focus a lot of it on raising money and they do a lot of informing as well, but PLT tries to focus more on like ‘this is the issue and how can we actually help besides just giving money.’”

Remember the weekly challenges we would get during silver rush season? Yup PLT does that. The Giving Machines? Also PLT.

It’s a way of giving back to the charity without giving money. “It’s just a place where we all get to come together through one thing that we all love which is service and we get to help people

and I feel like that just really unites the community and there are students that I would never have been able to meet if i didn't do PLT and some of my closest friends are from there.”

- Ava Hanson

Members of PLT are hanging out.

It’s “Funner” in the Summer!
By: Alyssa Brown and Eden Slabbert

Photo By: Eden Slabbert
The sun sets below the mountains

Summer is the time for relaxing and enjoying the sun. As the school year ends, people wonder if Covid will affect summer 2021 just as it did summer 2020. But this year shouldn’t be put on hold again because of Corona. Students should focus on planning activities that they believe will make it a blast even with everything happening in the world. If you are anxious for an activity to do either with family and friends or alone, here are just a few ideas...

For the people who like the water:

- Grab your friends and make chalk art, then bring out the water guns and buckets and have an epic water fight.
- Have a Lake Day! Even if you can’t get a boat, just go enjoy a lake day with swimming and fun in the sun.
- Play water games in the backyard like ‘drip, drip, drop’, water balloons, or simply run through the sprinklers.

For the people who like an adventure

- Pull a prank on someone, i don't know what prank but make sure it is a full on war, get everyone in on it, have an inside man, have a plan duh and make sure to be stealthy. Oh make sure it’s legal.
- Go camping on the school field (with permission of course).
- Try a new type of food. Have you ever tried escargot, crickets, or frog legs?
- Take a day trip with friends either down to Southern Utah, or hiking up in the mountains. Be sure to pack plenty of snacks, and definitely let your parents know!

For the people who want a chill summer

- Stay in and pick a movie you haven't seen before or haven’t seen in a while, and have a movie night.
- Take the chance to learn a new skill like learning a new language(or attempting), or learning to bake something tricky like macaroons.

- Do you like gardening? Plant your own garden and take care of it for the Summer. In the fall, you can share your garden, and your new knowledge with your friends.
- Are you a bookworm? Create a list of books and spend the Summer in a whole new world.

For the social people

- Go camping with your friends Utah has a diverse landscape filled with different camping spots. You can either stay warm in a tent by a roaring fire in the mountains, or head down south and sleep outside under the stars.
- Spend a day at Lagoon with friends.
- Learn a new game. Search up the rules and learn to play with family or friends.

For the people who want more of a thrilling night with friends:

- Go up the canyon, find a good spot for setting up hammocks and enjoy a night of hammocking, stargazing and a lot of fun stories with friends.
- Go to a horror themed drive-in movie.
- Sit around a campfire and enjoy s’mores as you tell spooky stories.

For the broke people:

- Picnic in the park, bring some empty canvases and paint away while enjoying good food.
- Learn to draw something really well.
- Make a kite and fly it with friends in the park.
- Rearrange or redo your bedroom.
- Pack a lunch, and go on a bike trip with your friends.

What’s Poppin’ in RHS

By: Jaron Millaway and Patrick Kastner

Residents of RHS were asked five questions about our Pop Culture!

WHATS POPPIN’ IN RHS?

1) What makes a sandwich, a sandwich?

2) Godzilla or Kong, and why?

3) If you could get rid of any music genre, which would it be?

4) What was your favorite school event this year?

5) Dr. Phil or Steve Harvey, and why?

SOPHOMOREJUNIORSENIORSTAFF

Gabriel Cook

1) The bread, it makes the sandwich

2) Godzilla, because he is a nuclear dinosaur

3) Rap

4) Thats a hard one, I'd have to say Silver Rush

5) Well, if I had to choose, it would be doctor Phil.

Jane Palmer

1) If it has some sort of bun, some sort of meat.

2) Godzilla, because he has a cooler name

3) Ummmm, yeah definitely rap

4) Silver Rush

5) Doctor Phil, because I don't know who the other guy is.

Jonothan Bundy

1) The bread, the meat, the cheese, the lettuce.

2) Kong, because Godzilla is too OP.

3) Screamo

4) Prom, it was probably the best one.

5) No Preference

Mr. Eaton

1) Umm...I guess...Things that are edible between two slices of bread-like products.

2) Kong, I think he's more relatable. He has expression to his face so more humans can relate.

3) ...Yodeling?

4) Being able to perform shows in the auditorium.

5) Steve Harvey

There is no other way to put it, this year of RHS hasn’t been the best. Covid has taken over and affected our lives all around us in the halls, the classrooms, and the lunchroom. However, there was a ray of light, a glimmer of hope, had arrived. Riverton High had the privilege of hosting prom!

We were the first school to hold its prom. No other school had their prom until late April. We were the example to other schools as to how a high school in the Jordan School District could handle a mass gathering in these conditions.

Prom Has Returned!!

By: Jaron Millaway & Molly Freeman

In order to even get into the prom dance, all tickets were required to be paid for online. Unlike the past years where they charged you at the door on your school fees, you were not available to purchase them at the door.

Another requirement was any student going to prom must have been tested within the past 48 hours. This greatly decreased the amount of students that have covid, making the prom dance an even safer gathering to go to.

Photo By: Jaron Millaway

Riverton Prom had a crazy turnout despite COVID-19

Of course like any other gathering, masks were also required in order to decrease the spread.

The theme for this year's prom was a night in Hollywood. The halls were decorated with red carpets, stars, spotlights, etc. It has been reported that over 1000 students have shown to prom.

Congratulations to Cameron Kunz for earning the title of prom king as well as Abigail “Abby” McDougal for earning the title of prom queen.

Graduation 2021

By: Eden Slabbert

Well, seniors, the time has come for us to get our turn at a graduation. One of the biggest experiences of our childhood dreams is graduating from high school and now that it's finally here there's a lot of uncertainty and mixed emotions going around.

With all the covid restrictions we weren't even sure if we'd be able to have a formal, in-person graduation at the start of this school year, but with much patience and anticipation RHS's school administration have made plans to get us the most covid-friendly graduation they could find.

This year we will be hosting our graduation ceremony at Real Salt Lake Academy Stadium in Herriman on June 3rd.

Of course covid had to be taken into consideration when they were determining the proximity of attendants, so each student will receive 7 tickets for family and friends to join them at the ceremony. We will be arriving at 9:00 a.m. dressed in our graduation regalia.

Now we know graduation ceremonies usually go on for a long time, but it is an honor and an amazing privilege we get to have an actual one this year.

Seniors hopefully you don't miss out on the activities they have for us leading up to and after graduation: May 22nd is the Senior Dinner Dance, this year the SBOs were told that we were only allowed a total of two dances so they (held at RHS at 6-9 p.m.)

May 27th is the Silverwolf Medallion Dinner at 4:00 p.m., and the Senior Awards Night at 5:30 p.m.. June 1st is yearbook signing in the gym. June 2nd graduation rehearsal at 9:00 a.m. and the graduation parade that will start at 6:00 p.m.

June 3rd Graduation! Boondocks Grad Party at 10 p.m. until 2:00 a.m.. Seniors these are our last moments let's make the most of it and congratulations you've made it!

Senior Advice

By: Taylor Eaton and Carter Blackwell

You ever wondered what the seniors think about school? Now that these seniors have 13 years of school wisdom and knowledge, what advice do they have to offer? Seniors of many kinds, including ones from athletic, drama, and academic and leadership students. We asked them for advice, and they delivered. Here is what they said:

MARK HENDERSON
-BASEBALL-

"Stay Positive"

TAYLOR EATON
-VOLLEYBALL-

"School's not everything"

KAYLEE SILVEY
-MUSIC-

"Find your priorities and prioritize."

MORGAN JONES
-BAND-

"Do homework and study instead of going straight to social media."

CARLI MARAVILLA
-ART-

"Don't eat at the cafeteria"

JAXSON HOWARD
-FOOTBALL-

"Make sure you're eating the right things and sleeping right."

‘This school year tho’

By: Patrick Kastner

Image by: Patrick Kastner
Yeah, we lived life for sure this year

Okay, we’ve heard it a MILLION TIMES, “this school year was like no other” or “despite the challenges,” blah blah blah. Yeah, we get it, this school year was weird - but let’s take a moment here, frankly, to just appreciate what we did accomplish this year by looking at what things came back this year that weren’t here last year, and reflecting on some of the best parts of this year, because 2020-2021 definitely had some amazing moments.

Sports that were cancelled last year, like baseball, softball, boys soccer, and more, finally came back and did amazingly this year! And yes, we get to go to the games, so it was a party. Indoor events, from MDT, Drill, and Dance Co. competitions, and basketball all made this school year great. With virtual assemblies we were able to see some really unique performances from groups through the power of editing. Oh and yes, we had Silver Rush, making almost 100 thousand dollars! Let’s not forget Spirit Week: watching students beat the daylight out of each other

with pool noodles was priceless. The Hope Walk happened, and although I may or may not have accidentally photobombed the Hope Squad, it was really fun to go and melt over that hot chocolate and cookies for such a great cause. Prom came back, PROM!! It was a dream come true. In 2021, Silverscreen came back, consistently bringing new episodes Mondays, every other week. It was awesome to see it back in action on the big screen. The senior dinner dance is happening, graduation is actually happening, and the graduation party at Boondocks is too! The school newspaper has been printing physical copies for the first time in years! The Pack shack has been lighting it up - oh, and free lunches this year with those to-go boxes, phenomenal.

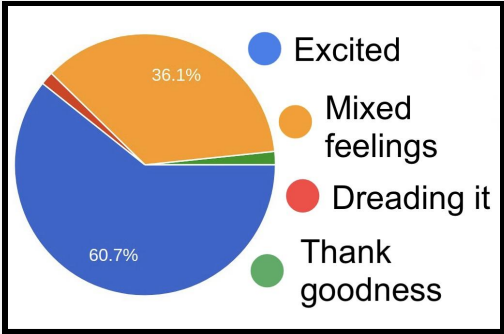

So much has happened this year, and so many things came back that we didn’t get last year, which is tremendous. Kudos to the SBO’s, School Administration, and all students, teachers, and volunteers who made this year awesome!

Graduation and Summer Feels

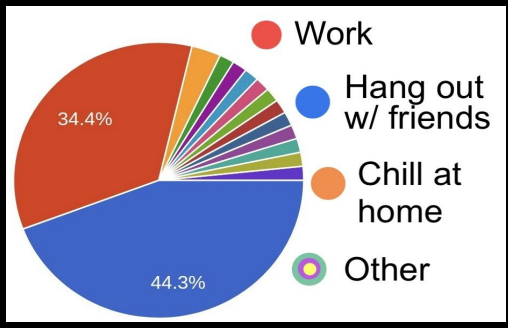

By: Patrick Kastner and Carson Packer

Just Graduation, then summer is virtually here Seniors, and we have the opportunity to make this summer a great one! Think of all the activities that we can do, especially when compared to last summer. Maybe go to the moon? Nah, probably not that epic, but after surveying some seniors, let’s see what their thoughts are on graduation and what plans they have for the summer.

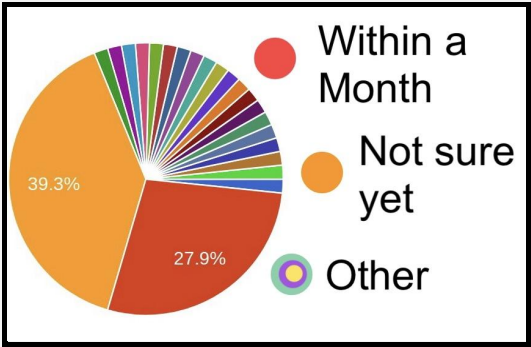

How do you feel about graduation?

What do you plan to do this summer?

How soon are you moving out?

Are you planning a Senior Trip?

Continually, the different perspectives we got from the written responses were great. There were very interesting views between seniors who’d enjoyed their time here- “School was crazy, nice meeting new people, and having fun at events,” even “Ain’t no party like a Riverton party,” - and seniors who reflected but are looking to the future - “I’m excited to leave,” “High school was fun but I’m ready to be done,” and “I’m going to miss the wood shop, as well as a bunch of great teachers, But I am ready to start working towards a new goal, other than finishing my last year here with bang!” High School is definity an amazing part and transition of life.

One thing is interesting, though. Many people feel like high school goes by fast. One student said the advice they’d give “would be to not waste the time you have. It may feel like high school will take forever, but it’ll be over before you know it.” And that’s very true indeed; high school is a rare time to take risks with little to lose, try new things with little consequence, meet new people at ease, and just have fun. That’s why you should take every opportunity to get involved, and for those whose time has come to move on in life, let’s make this summer the best one ever!

Soccer’s on a Roll

Teammates high-fiving each other

After missing a season due to quarantine last year the boys soccer team has returned for a full season for the first time since 2019. It's been a close season with highs and lows winning against Bingham, Copper Hills, and West high school. And losing to Herraman and Copper Hills and Jordan. Overall, it's been a great season and it’s all tied up 3-3.

The games they've played have been thrilling, exciting and full of unforgettable memories. Kyle Wood says one of his favorite memories is “ the Bountiful game when we tied 2 to 2 in normal time and in overtime no goals were scored and in a penalty shoot out I made 2 saves and we won 3-2”.

This year has been really hard on all students here at Riverton, not being able to do activities and dances has made spring sports and dances so much sweeter. The appreciation felt for the opportunity to have a full season and be able to play as a team has really been felt this year.

Curen Cole said “ It feels great to be able to hit the field with my boys everyday. I’m glad Riverton is possible”. Riverton High School has been through a lot in the last two years and we are all so proud of our soccer team for their patience in the pandemic, hard work In going back after a long break, and their dedication to our school in good times and bad.

Softball Hits Big Runs on Big Teams

By: Taylor Eaton

Softball is off to a great start this year! These student athletes have been working hard with hopes to take not only first in region but first in state too!

This season they have won 16 out of the 17 games they’ve played and have continuously swept our rival schools (Herriman and Bingham)! “It's all the girls they are very talented and Hardworking ” says Ms. Elliot the head coach.

Softball celebrates after getting that dub

On May 4th softball had a great night celebrating their four seniors; Bella, Chloe, Bailey and Sheila while beating Jordan in the process. Softball has worked incredibly hard this year and as a result they won region. Congrats softball!

Drive For show, Putt For Dough

By: Carter Blackwell

Girls golf was a team that got stuck at covid season last year. They have bounced back this year. They have done great too!

They are currently third in region and will make it to state. They have a few seniors but a young team that will be ready to do well for the next few years. They play in tournaments in a lot of places.

The bounce back could be hard but they gave it a good run this year. Make sure you cheer them on.

They will have a good run at state. They are a well rounded team. They have a good chance to do well in region and state. They made it to state, taking first in their region. Go Girls Golf!

Riverton Baseball team poses majestically

Baseball Comes in Clutch

By: Taylor Eaton

Riverton baseball was on a roll this season as they won 17 out of the 24 games played, swept Herriman in three, won two out of the three games vs Bingham, and performed well in state.

They started the season hoping to defend their number one ranking in region throughout the rest of the season with Jordan right behind them, and became region champs

Although they are focused on being the best they can be on the field, most of them are more concerned with their connections off the field as well, “its not all about the wins, it’s also about getting closer to my teammates” says Mark Henderson, one of three seniors on the team.

H*ll Yah for Boys Tennis

By:Carli Maravilla

Boys Tennis here at Riverton is a party 24/7/365 . This season, especially, has been a breath of fresh(nomal) air from this ab-normal year. For the seniors on the team this is their last season and they are making it count by making every game and practice (as I said before) an absolute party. However this does not mean that our riverton tennis team is all play and no work, Senior Christian Andrewson said, referring to their practices “All the time is grind time” , meaning that it is the hard work the guys do together that brings them so close. As for covid... well covid hasn’t held boy’s

tennis back at all Cade cooper described the light restrictions as “ We only occasionally have to wear masks at matches, everything is outside so it’s not problematic” Cade also said that for any freshman, sophomore, or junior looking to join the team, he would recommend it because “ It’s a super fun sport and an amazing team vibe. I would recommend trying out for anyone who is looking for fun” Team morale and unity is definitely something you can feel when being around the tennis team which goes to show that the Riverton High School Tennis Team is the place to be if you're looking for a party and close friends who love to work hard and have a good time.

It’s Lax In Lax

By: Carter Blackwell

Lacrosse is one of the fastest growing sports in America. More and more are playing every year. That is the case here at Riverton High School as well. It has fastly become a popular sport to play and watch. Girls lacrosse has stars such as Megan Davenport, Sarah Davenport, Livia Sargent, and more. They have had a competitive season and won some fun rival games. They play sixteen games before playoffs and Megan is confident they can go far. Most of all they have a great bond on the team. Megan Davenport talks about this very bond. She said, “ Our plans are to have fun and get better as a team. Our coach wants us not to focus on wins but on improving.” This takes patience and they have that as a team. The boys team is also doing great things this year. They have a great team. They have been on their way to many wins. They have many seniors to cheer on that have played together for years. One of them is Parker Lillian. He loves his team. Parker said this team is like a brotherhood. He said they can also make a good run at the playoffs this year. They get better by using film. Watch both of the lacrosse teams this year; they are going to do great in the playoffs.

Running Down the Competition

By: Carson Packer

Photo By: Weston Smith
Caption: Team ran a relay with a bagel

This year’s track team is getting ready for their big competitions in May. Their races at BYU are on the 7th and 8th. Their Region competition is on the 12th and 13th. Finally, they have State competition on the 18th and 19th. Senior Weston Smith says that he is confident in Riverton’s ability in “all of the distance events.” These events include such races as the 4x400, 4x800, the 1600, and the 3200. These claims are for good reason as well because we have had some very impressive times in these events so far this year. TJ Warnick, Taylor O’Farrell, and Jake Seegmiller all set records in certain events and our girls have the state leading time in the 4x800 at this moment. Senior TJ Warnick, who now has the second fastest 1600m time in Riverton’s history, credits the “consistency of the training over the years” as the main reason for his success. The team works really hard as a whole as well, running “6 days a week” during the season. We love our Track and Field team! Go Wolves!

Moral of The Story

By: Ana Christensen

Hey, Silverwolves! This year has been a rough year for a lot of us because of Covid and online school. But, there are lessons that we can take away from this. Here is my gift to you this crazy year.

For the first time, in a long time, I feel at peace.
The painful things that had happened are now scars
in the back of my mind.
I look at each one of them as lessons that I take to heart.
Count your blessings and realize that those difficult times
are there for you to learn with an open heart and mind.
Because *that* is the moral of the story.
Take those lessons to heart and never forget.
Take those lessons and *forgive*.
Take those lessons and become someone that *you* are going
to be proud of one day.
Wounds may heal, but scars stay with you until the end,
So don't ever forget the lessons they teach you.
Don't ever forget the friends and family who helped you through
the night.
Because *that* is the moral of the story.

Ana Christensen posing for a picture.

My name is Ana Christensen and I am so glad to have been in Journalism this year. It has been so fun to be a part of the School newspaper. I am grateful for the many friends I made in Journalism and am sad to see them go as they graduate and move on with their lives. I am also grateful for the members of Silverscribe who will be joining me again next year, and for those who will be joining for the first time. I hope you all have a fantastic summer and I hope to see a lot of you next school year!

Arrr’ Ya Ready RHS!?

By: Jaron Millaway

Aye Aye Captain, is what you would have said if you were at the show! If you were, you already know this show was spectacular. I was curious to find out how MDT would pull this off. Little did I know how well they would do so. As said by Patchy the Pirate (Lillian Richins), “This school is one of the few schools to ever put on this show.” The story of the Spongebob Squarepants the Musical goes as follows; It was just a normal day, Spongebob, (Ethan Smith) was getting ready to go to work at the Krusty Krab. Ironically, the nearby volcano started to erupt and was about to wipe out Bikini Bottom.

Everyone decided to pack their belongings and evacuate, except for Spongebob, who wanted to stop the volcano accompanied by Sandy, (Saylor Miller). Meanwhile, Plankton, (Dallin Curtis), as he always does, comes up with an evil scheme that will allow him to trap everyone in the Chum Bucket. Plankton sways the Bikini Bottom citizens to build a rocket, but unfortunately, the town doesn’t have the funding to build one. They decide to livestream a music event to help build funding for the rocket. Spongebob and Sandy, later joined using Sandys’ jetpack, Patrick, (Staley Binks), were able to stop the volcano from erupting using a bubble bomb. Thus, saving Bikini Bottom for another burger-flippin day.

This nostalgic story was performed by the MDT April 15th through the 19th. I have been lucky enough to interview some of the cast members of MDT. Such as Spongebob, (Ethan Smith), and Old Man Jenkins, (Cameron Kunz). I asked them questions such as; “What was your favorite part of the play?” “What was your favorite line?” and “Did you get the part you wanted?”

Ethan Smith said: “My favorite part was the simple sponge number because the pitch black and black lighting made the choreography super cool!”

“My favorite line was when my spongebob accent dropped super low and said, ‘I’M NOT FINISHED”
“Yes, from the beginning I really wanted the Spongebob part and I was so pumped that I got it.”

Cameron Kunz said: “My favorite part was being able to explore a fun cartoon character, as to what it’s like to be one. It was fun!”
“There is the iconic line of, ‘Get off my lawn!’”
“I think the casting did a great job and everyone who got their parts did a great job at doing them! It was casted correctly.”

Summer Fortunes

By: Carson Packer and Taylor Eaton

To find your fortune for summer 2021:

- 1) Pick a number 1-10
- 2) Multiply by three
- 3) Add 6
- 4) Divide by 3
- 5) Subtract the number you chose in the beginning from your answer (Answer - Start)

- 1) You will have a really great summer full of traveling and long road trips with the people closest to you. You will also eat tons of great food and have a really great few months overall.
- 2) You’ll be out with your friends on the evening of June 18th when a man with a gray beard, large nose, blue eyes, and a roundish figure approaches you in a mineral green 2004 Toyota Corolla. He will tell you his name is Sydney Hamilton. His eyes widen with fear as he tells you, “they are approaching.” When you ask him what he means he answers your question with another question: “Do you have any spoons at your house?”

If you do, the only way to stop them from coming for you is by replacing every single spoon with a spork.” Then, before you know it, he speeds off into the distance never to be seen again. Enjoy your summer!

- 3) You should basically identify as a fish as you are constantly in and out of the pool. You will have outrageous tan lines and an enormous amount of fun in the sun.
- 4) Be careful, the numbers were not in your favor this time around! People will constantly back out on plans and not have any time to spend the time with you that you want them to. Try to have a positive attitude and you will come out fine.
- 5) Looks like you have a great instinct because this summer your parents have basically forgotten you lived at home still as you are constantly out with your friends exploring the outdoors and overall having an unforgettable summer.

- 6) You will have a very underwhelming summer. It won’t be a bad experience, but constantly sitting around doing nothing will start to wear on you and you will start to become excited for the new year to start.
- 7) Your summer won’t have a single dull moment. Constantly hanging out with friends and family and having a good time until it’s debatable whether it is too early in the morning or too late at night will happen almost every day for you.
- 8) I’m sorry to tell you, but you’ve basically been burned to a crisp. Although you have applied sunscreen every 15 minutes and sat in the shade as much as possible your skin isn’t exactly looking the best. Hope you like the smell of Aloe Vera!
- 9) Your parents decide that getting a new pet will be helpful for the family. Luckily, they give you the decision on what pet it will be. Hopefully you’re ready for a new member to the family!

Summer Fun

Get Out Your Pencil and Play!

By: Alyssa Brown

As the weather warms up, some students begin to pack for vacation, while others focus on movie marathons. However people choose to spend their summer, they all strive to make their break successful. Make your summer successful by creating a goal that makes you want to get up instead of sleeping past noon. In the meantime, let out your excitement for summer to start by grabbing a pencil or pen...or crayon or marker...and filling out this crossword puzzle. Enjoy, and have a great summer, Silverwolves!

Across

- 3. A trip for fun
- 7. Main star in solar system
- 8. A month in summer
- 10. Used to protect eyes from sun
- 11. A refreshing summer drink
- 12. Riding a board
- 13. Sweet and cold treat
- 14. Going up a mountain
- 15. Worn in the water
- 16. Summer game played on the field

Down

- 1. Sport often played on the beach
- 2. Used to dry off skin and hair
- 4. big boat that transports many tourists across oceans
- 5. Crazy rides and fun games
- 6. Protects from burns
- 9. Pink summer fruit
